Hi Jacquie,

Molly McLoughlin forwarded me your request for information about the percentage of students in the Northampton Public Schools who are currently enrolled in hybrid learning. Dr. Provost presented the chart below to the School Committee. It reflects the numbers and percentages of students enrolled in hybrid learning by school and grade.

Hope this is what you were looking for. Please let me know if I can be of any further assistance.

Annie

Hi Annie,

Yes, this is it!! I thought it had been presented at a school committee meeting, but there are so many hours of committee video! (as well you know).

Was looking for the percents more generally by elementary vs middle school vs high school. Are the numbers for middle school and high school available, or will these not be available until the upper level students (6-12) actually transition to the hybrid model?

Thank you!
Jacquie
